AVALON MATERNITY FINANCIAL POLICY

To Our Valued Patient:

We would like to acquaint you with our financial policy. Managed care policies can be varied in regards to the out-of-pocket expense for a patient. This expense is ultimately the responsibility of the patient. This may include co-payments, co-insurance, and deductibles. Some of these expenses may be significant depending on your policy.

We will contact your insurance company prior to your first visit with Avalon and obtain your maternity benefits. These benefits will include your initial pregnancy office visit, all subsequent prenatal office visits, delivery and post-partum care.

Our Patient Benefits Coordinator, Trisha Sisco, will contact you to discuss your insurance benefits. She will assist you to develop a payment strategy. A payment will be required at your first prenatal office visit, as well as each subsequent visit. The deductible and/or co-insurance amount for which you are responsible, must be paid in full by 28 weeks gestation. If you are transferring to Avalon for maternity care at 28 weeks or later, a complete payment will be due upon your first visit. If there is any remaining balance after the claim is processed, it will be due in full 45 days from your delivery date. Failure to do so will result in your account being turned over to collections

If you are unable to comply with the above financial policy, you are agreeing to a transfer of care after all aspects of the situation are considered and discussed.

I have read, understood, and agree to comply with the financial policy stated above.
